06/2019
JavaScript Algorithm and Data Structure - FreeCodeCamp

03/2019
The complete Web developer - Udemy

12/2018
Responsive web design - FreeCodeCamp

EDUCATION

2016
University of Maryland, Baltimore County
Bachelor of science: Information System

HIGHLIGHTS

- Designed and developed a web application from scratch
- Built **single page application** using **React Framework**
- Understand **responsive web design** and **full stack architecture**
- Familiar with **version control** tool

PROJECTS

Home Service – *https://homeserviceapp.herokuapp.com*

- **A responsive webpage application allows users to search and post home-related services**
- Used React Framework to build user interface, **react-router-dom** for routing and links, and **react-bootstrap** for components (such as: forms, buttons, card etc.…)
- Built using Node.js/Express.js, Knex.js, PostgreSQL, bcrypt-nodes.js, body-parser, and CORS for back-end application

Demographic App – *https://xiuw.github.io/demographic-app*

- **Users submit an image (by a URL link or local file) for age, gender and ethnic prediction**
- Built UI using React Framework, **tachyons** for styling
- Clarifai API (Demographics model - analyzes images and return with information)

OTHER EXPERIENCE
